# IDEAS

When we sketched the outlines for the IDEAS catalogue it became clear we could and should capitalise the experience gained throughout the years. That never-ending journey of working wood, challenging knowledge and generating results brought us where we are now, a fact we must not dismiss.

Our design has a solid, clean and atemporal reputation. As a result, we have compiled some of our best work on this catalogue, overflowing with proposals for your home and schemes you can adapt to your circumstance.

Time devoted to developing and shaping unique furniture led to what we present in this IDEAS catalogue. We threw in some brand new models, revamped some classics, showcased new finishes and raw materials and chose the best pieces for three distinct scenarios, three different households, and three ways to live life.

Comfort is at the centre of our concerns. The objective is to optimise the available space to create the perfect setting for study, work and leisure.

IDEAS reflects all these points in question and hopefully will serve as a guide to elevate your living space to the next level and an example of what should be the industry's future standard.

IDEAS

BB

Superior design, superb functionality and lasting quality should not be exclusive. Our goal is to make it affordable to anyone that enjoys comfort and beauty. That is possible, even when using extreme quality raw materials. The reasons are the high productivity, fabrication processes, and mainly the modularity of our pieces, fitting in almost any environment, in any place, at everybody's home.

In the first act of the IDEAS catalogue, we bring you examples of life with A.BRITO in a city apartment or townhouse. Urbanity weighted our choices, as we wanted to balance it so that you can enjoy life in your cosy bubble.

## 701

Finishes:

Cabinet - F02, M41

Side Table - M41, M18

# SERENITY

## IDEAS

Life is full of choices. Sometimes you choose to move to a quieter place and run from urban agitation. Other times you know deep inside that city rush is not for you and stay in the calmer village you grew up in, others get the chance to have a spacious home in the centre of some metropolis. No matter the case, we are talking about a substantial place to live and its wider chambers, generous windows, broader spaces, and ampler volumes.

Now that there is more area to decorate and furnish, you will need to rethink the size of your pieces, the negative space and what to highlight.

In the second act of the IDEAS catalogue, we will illustrate what our designers can do for your comfort, wellbeing, practicality and taste if you own a single-family home or a big condo and cherish the serenity of inhabiting a calmer and slower way.

## 710

Finishes: F29, M107, VI96

Dimensions: L100 D40 H160

Unsimilar depth, shape and composition create a powerful optical effect and confer complexity to any design. Those intricacies equally serve the practical side, as all those aristas and faces can hold most of your favourite items.

# 711

Finishes: F29, M37

Dimensions: L80 D40 H140

The wind that creates the ripple effect on a distant salty shore is the same that blows the leaves of a centennial tree. Nature inspires us to work the organic rawness to reach a refined state.

# 712

Finishes: M108, VI96

Dimensions: L100 D40 H156

Split, divide and transform the object into a compartmental condition. Gain space by optimising the available setting, maintaining clean lines and superior design.

# OSMOSIS

## IDEAS

On IDEAS' third act, it is all about grandeur in its various semblances.

Luscious settings ravish designs and entrancing proposals. We aim for that in this final sequence of suggestions.

The bar is set high, so, design-wise, we went further and explored over the top possibilities, daring finishes and epic dimensions.

Our creative team believes uniqueness is the fundamental requirement for a high personality home.

You do not want your furniture to disappear amid your walls. You want it to shine harmoniously through architecture, like osmosis, and here you will get just that.
